KENWOOD IRIS GARDENS
(Mrs. J. F. Emigholz)
SY. 7496

This list contains varieties each costing 50¢ or less, only outstanding ones in each class. So many newer kinds are now available, that many older varieties are not listed. A Novelty List of finer varieties and Lilies, can be had on request. These bulbs are available only on order. Narcissus bloom in early April. Come to see them, and make your selection. Orders must be placed before July 1st.

All bulbs are top-size, doubled-nosed, that bear at least 2 flowers. We have found that the bulbs from the North-West are generally larger in size, than those sent from Holland. So wherever the price allows, you will receive American bulbs. The difference in cost is not worth considering. Most of the bulbs offered at lower prices are smaller in size, in many cases.

TERMS OF PAYMENT: New local customers make a deposit with the order, the balance on delivery in early fall. Out-of-town customers - cash with order, or 25% deposit, and the balance C.O.D., except where credit is established. Orders charged at the single or dozen rate, are sent prepaid, if the order is \$5.00 or over. Orders at the 100 rate, postage extra. No order accepted under \$2.00.

For the sake of brevity, the perianth or outer segments are marked (P.), the trumpet (T.). Numbers after name indicate time of bloom. 0 is the earliest, season begins with 1, and 5 - 6, are late.

QUANTITY PRICES: 3 of the same var. listed @ 15¢ each for 40¢; 18¢ var. 50¢; 20¢ var. 55¢; 25¢ var. 70¢; 30¢ var. 80¢; 35¢ var. 95¢; 40¢ var. \$1.10; 45¢ var. \$1.25; 6 or more of the same kind at the 12 rate, 25 or more at the 100 rate.

YELLOW TRUMPETS

Trumpet as long or longer than the perianth segments.

	Each-Doz.-100
AEROLITE 1-Large. Deep primrose pointed P. Medium yellow T.	.20 2.00 15.-

SMALL BULBS

These are especially suited for massing in woodlands, around trees and shrubbery, and should be planted thickly for best results. The bulbs can be left undisturbed for years, when they will increase in numbers and in beauty. The dwarfer varieties are fine for edging flower borders, and necessary in the rock garden. They are valuable for miniature flower arrangements in spring, when little other suitable material is available.

CAMASSIA

Sun or shade. Dry or moist soil. May. Bloom a long time.

Doz.-100

LEICHTLINI- 2-4 ft. Lily-like fls. $1\frac{1}{2}$ " across, in various shades of blue and creamy white. Specify color, or can be mixed. Lovely. Top size bulbs. \$1.50 10.-
